CALIFORNIA LEGISLATURE—2011–12 REGULAR SESSION

ASSEMBLY BILL

No. 1541

Introduced by Assembly Member Dickinson

January 24, 2012

An act to amend Sections 6276.36 and 11125.1 of the Government Code, and to amend Sections 315, ~~and 454.5, and 5960~~ of, and to repeal and add Section 583 of, the Public Utilities Code, relating to the Public Utilities Commission.

LEGISLATIVE COUNSEL'S DIGEST

AB 1541, as amended, Dickinson. Public Utilities Commission: public records.

~~Existing~~

(1) *Existing* law, the California Public Records Act, requires any public record of a state or local agency to be open to inspection at all times during office hours of the agency and, upon request, a copy shall be made promptly available to any person upon payment of copying costs. The act makes certain records exempt from disclosure.

Existing law provides the Public Utilities Commission with regulatory authority over public utilities and authorizes it to establish its own procedures, subject to statutory limitations and constitutional requirements of due process. The Public Utilities Act requires the commission to investigate the cause of all accidents occurring upon the property of any public utility or directly or indirectly arising from or connected with its maintenance or operation, resulting in loss of life or injury to person or property and requiring, in the judgment of the commission, investigation by it, and authorizes the commission to make

any order or recommendation with respect to the investigation that it determines to be just and reasonable.

This bill would subject *to the California Public Records Act, except as specified*, an order or recommendation made by the commission and any accident report filed with the commission pursuant to these requirements ~~to the California Public Records Act, except as specified.~~

The

(2) *The public Utilities Act prohibits the commission or an officer or employee of the commission from disclosing any information furnished to the commission by a public utility, a subsidiary, an affiliate, or corporation holding a controlling interest in a public utility, unless the information is specifically required to be open to public inspection under the act, except on order of the commission or a commissioner in the course of a hearing or proceeding. A violation of that provision is a crime.*

This bill would repeal that provision and instead provide that all records of, or ~~filed with information furnished to~~, the commission are public records that shall be subject to the California Public Records Act, except as specified. *The bill would provide that any present or former officer or employee of the commission who divulges any information that is exempt from disclosure is guilty of a misdemeanor.* The bill would make conforming changes to the California Public Records Act. *By expanding the scope of a crime, the bill would impose a state-mandated local program.*

(3) *The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.*

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: ~~no~~-yes.

The people of the State of California do enact as follows:

23 agendas of public meetings and other writings, when distributed
24 to all, or a majority of all, of the members of a state body by any
25 person in connection with a matter subject to discussion or
26 consideration at a public meeting of the body, are disclosable public
27 records under the California Public Records Act (Chapter 3.5
28 (commencing with Section 6250) of Division 7 of Title 1), and
29 shall be made available upon request without delay. However, this
30 section shall not include any writing exempt from public disclosure
31 under Section 6253.5, 6254, or 6254.7 *or Section 583 of the Public*
32 *Utilities Code*.

33 (b) Writings that are public records under subdivision (a) and
34 that are distributed to members of the state body prior to or during
35 a meeting, pertaining to any item to be considered during the
36 meeting, shall be made available for public inspection at the

40 as required by Section 202 of the Americans with Disabilities Act

1 of 1990 (42 U.S.C. Sec. 12132), and the federal rules and
2 regulations adopted in implementation thereof, upon request by a
3 person with a disability.

4 (c) In the case of the Franchise Tax Board, prior to that state
5 body taking final action on any item, writings pertaining to that

3 SEC. 3. Section 315 of the Public Utilities Code is amended
4 to read:

5 315. (a) The commission shall investigate the cause of all
6 accidents occurring within this state upon the property of any
7 public utility or directly or indirectly arising from or connected
8 with its maintenance or operation, resulting in loss of life or injury
9 to person or property and requiring, in the judgment of the
10 commission, investigation by it, and may make any order or
11 recommendation with respect thereto as in its judgment seems just
12 and reasonable. Neither the order or recommendation of the
13 commission nor any accident report filed with the commission
14 shall be admitted as evidence in any action for damages based on
15 or arising out of such loss of life, or injury to person or property.
16 Every public utility shall file with the commission, under rules the
17 commission prescribes, a report of each accident so occurring of
18 the kinds or classes as the commission from time to time
19 designates.

20 (b) Any order or recommendation made by the commission
21 pursuant to this section, and any accident report filed with the
22 commission pursuant to this section, shall be subject to the
23 California Public Records Act (Chapter 3.5 (commencing with
24 Section 6250) of Division 7 of Title 1 of the Government Code),
25 except as provided in Section 6254 of the Government Code *or*
26 *Section 583*.

27 SEC. 4. Section 454.5 of the Public Utilities Code is amended
28 to read:

29 454.5. (a) The commission shall specify the allocation of
30 electricity, including quantity, characteristics, and duration of
31 electricity delivery, that the Department of Water Resources shall
32 provide under its power purchase agreements to the customers of
33 each electrical corporation, which shall be reflected in the electrical
34 corporation’s proposed procurement plan. Each electrical
35 corporation shall file a proposed procurement plan with the
36 commission not later than 60 days after the commission specifies
37 the allocation of electricity. The proposed procurement plan shall
38 specify the date that the electrical corporation intends to resume
39 procurement of electricity for its retail customers, consistent with
40 its obligation to serve. After the commission’s adoption of a

1 procurement plan, the commission shall allow not less than 60
2 days before the electrical corporation resumes procurement
3 pursuant to this section.

4 (b) An electrical corporation's proposed procurement plan shall
5 include, but not be limited to, all of the following:

6 (1) An assessment of the price risk associated with the electrical
7 corporation's portfolio, including any utility-retained generation,
8 existing power purchase and exchange contracts, and proposed
9 contracts or purchases under which an electrical corporation will
10 procure electricity, electricity demand reductions, and
11 electricity-related products and the remaining open position to be
12 served by spot market transactions.

13 (2) A definition of each electricity product, electricity-related
14 product, and procurement related financial product, including
15 support and justification for the product type and amount to be
16 procured under the plan.

17 (3) The duration of the plan.

18 (4) The duration, timing, and range of quantities of each product
19 to be procured.

20 (5) A competitive procurement process under which the
21 electrical corporation may request bids for procurement-related
22 services, including the format and criteria of that procurement
23 process.

24 (6) An incentive mechanism, if any incentive mechanism is
25 proposed, including the type of transactions to be covered by that
26 mechanism, their respective procurement benchmarks, and other
27 parameters needed to determine the sharing of risks and benefits.

28 (7) The upfront standards and criteria by which the acceptability
29 and eligibility for rate recovery of a proposed procurement
30 transaction will be known by the electrical corporation prior to
31 execution of the transaction. This shall include an expedited
32 approval process for the commission's review of proposed contracts
33 and subsequent approval or rejection thereof. The electrical
34 corporation shall propose alternative procurement choices in the
35 event a contract is rejected.

36 (8) Procedures for updating the procurement plan.

37 (9) A showing that the procurement plan will achieve the
38 following:

39 (A) The electrical corporation, in order to fulfill its unmet
40 resource needs, shall procure resources from eligible renewable

1 energy resources in an amount sufficient to meet its procurement
2 requirements pursuant to the California Renewables Portfolio
3 Standard Program (Article 16 (commencing with Section 399.11)
4 of Chapter 2.3).

5 (B) The electrical corporation shall create or maintain a
6 diversified procurement portfolio consisting of both short-term
7 and long-term electricity and electricity-related and demand
8 reduction products.

9 (C) The electrical corporation shall first meet its unmet resource
10 needs through all available energy efficiency and demand reduction
11 resources that are cost effective, reliable, and feasible.

12 (10) The electrical corporation's risk management policy,
13 strategy, and practices, including specific measures of price
14 stability.

15 (11) A plan to achieve appropriate increases in diversity of
16 ownership and diversity of fuel supply of nonutility electrical
17 generation.

18 (12) A mechanism for recovery of reasonable administrative
19 costs related to procurement in the generation component of rates.

20 (c) The commission shall review and accept, modify, or reject
21 each electrical corporation's procurement plan. The commission's
22 review shall consider each electrical corporation's individual
23 procurement situation, and shall give strong consideration to that
24 situation in determining which one or more of the features set forth
25 in this subdivision shall apply to that electrical corporation. A
26 procurement plan approved by the commission shall contain one
27 or more of the following features, provided that the commission
28 may not approve a feature or mechanism for an electrical
29 corporation if it finds that the feature or mechanism would impair
30 the restoration of an electrical corporation's creditworthiness or
31 would lead to a deterioration of an electrical corporation's
32 creditworthiness:

33 (1) A competitive procurement process under which the
34 electrical corporation may request bids for procurement-related
35 services. The commission shall specify the format of that
36 procurement process, as well as criteria to ensure that the auction
37 process is open and adequately subscribed. Any purchases made
38 in compliance with the commission-authorized process shall be
39 recovered in the generation component of rates.

(2) An incentive mechanism that establishes a procurement benchmark or benchmarks and authorizes the electrical corporation to procure from the market, subject to comparing the electrical corporation's performance to the commission-authorized benchmark or benchmarks. The incentive mechanism shall be clear, achievable, and contain quantifiable objectives and standards. The incentive mechanism shall contain balanced risk and reward incentives that limit the risk and reward of an electrical corporation.

(3) Upfront achievable standards and criteria by which the acceptability and eligibility for rate recovery of a proposed procurement transaction will be known by the electrical corporation prior to the execution of the bilateral contract for the transaction. The commission shall provide for expedited review and either approve or reject the individual contracts submitted by the electrical corporation to ensure compliance with its procurement plan. To the extent the commission rejects a proposed contract pursuant to this criteria, the commission shall designate alternative procurement choices obtained in the procurement plan that will be recoverable for ratemaking purposes.

(d) A procurement plan approved by the commission shall accomplish each of the following objectives:

(1) Enable the electrical corporation to fulfill its obligation to serve its customers at just and reasonable rates.

(2) Eliminate the need for after-the-fact reasonableness reviews of an electrical corporation's actions in compliance with an approved procurement plan, including resulting electricity procurement contracts, practices, and related expenses. However, the commission may establish a regulatory process to verify and ensure that each contract was administered in accordance with the terms of the contract, and contract disputes that may arise are reasonably resolved.

(3) Ensure timely recovery of prospective procurement costs incurred pursuant to an approved procurement plan. The commission shall establish rates based on forecasts of procurement costs adopted by the commission, actual procurement costs incurred, or combination thereof, as determined by the commission. The commission shall establish power procurement balancing accounts to track the differences between recorded revenues and costs incurred pursuant to an approved procurement plan. The commission shall review the power procurement balancing

1 accounts, not less than semiannually, and shall adjust rates or order
2 refunds, as necessary, to promptly amortize a balancing account,
3 according to a schedule determined by the commission. Until
4 January 1, 2006, the commission shall ensure that any
5 overcollection or undercollection in the power procurement
6 balancing account does not exceed 5 percent of the electrical
7 corporation's actual recorded generation revenues for the prior
8 calendar year excluding revenues collected for the Department of
9 Water Resources. The commission shall determine the schedule
10 for amortizing the overcollection or undercollection in the
11 balancing account to ensure that the 5-percent threshold is not
12 exceeded. After January 1, 2006, this adjustment shall occur when
13 deemed appropriate by the commission consistent with the
14 objectives of this section.

15 (4) Moderate the price risk associated with serving its retail
16 customers, including the price risk embedded in its long-term
17 supply contracts, by authorizing an electrical corporation to enter
18 into financial and other electricity-related product contracts.

19 (5) Provide for just and reasonable rates, with an appropriate
20 balancing of price stability and price level in the electrical
21 corporation's procurement plan.

22 (e) The commission shall provide for the periodic review and
23 prospective modification of an electrical corporation's procurement
24 plan.

25 (f) The commission may engage an independent consultant or
26 advisory service to evaluate risk management and strategy. The
27 reasonable costs of any consultant or advisory service is a
28 reimbursable expense and eligible for funding pursuant to Section
29 631.

30 (g) Notwithstanding Section 583, the commission shall adopt
31 appropriate procedures to ensure the confidentiality of any market
32 sensitive information submitted in an electrical corporation's
33 proposed procurement plan or resulting from or related to its
34 approved procurement plan, including, but not limited to, proposed
35 or executed power purchase agreements, data request responses,
36 or consultant reports, or any combination, provided that the Office
37 of Ratepayer Advocates and other consumer groups that are
38 nonmarket participants shall be provided access to this information
39 under confidentiality procedures authorized by the commission.

(h) Nothing in this section alters, modifies, or amends the commission's oversight of affiliate transactions under its rules and decisions or the commission's existing authority to investigate and penalize an electrical corporation's alleged fraudulent activities, or to disallow costs incurred as a result of gross incompetence, fraud, abuse, or similar grounds. Nothing in this section expands, modifies, or limits the State Energy Resources Conservation and Development Commission's existing authority and responsibilities as set forth in Sections 25216, 25216.5, and 25323 of the Public Resources Code.

(i) An electrical corporation that serves less than 500,000 electric retail customers within the state may file with the commission a request for exemption from this section, which the commission shall grant upon a showing of good cause.

(j) (1) Prior to its approval pursuant to Section 851 of any divestiture of generation assets owned by an electrical corporation on or after the date of enactment of the act adding this section, the commission shall determine the impact of the proposed divestiture on the electrical corporation's procurement rates and shall approve a divestiture only to the extent it finds, taking into account the effect of the divestiture on procurement rates, that the divestiture is in the public interest and will result in net ratepayer benefits.

(2) Any electrical corporation's procurement necessitated as a result of the divestiture of generation assets on or after the effective date of the act adding this subdivision shall be subject to the mechanisms and procedures set forth in this section only if its actual cost is less than the recent historical cost of the divested generation assets.

(3) Notwithstanding paragraph (2), the commission may deem proposed procurement eligible to use the procedures in this section upon its approval of asset divestiture pursuant to Section 851.
